- **Reminder:** If you wish to address the Board of Health, please fill out the Public Participation Form below, and submit via the embedded Submit Form Now button. (webpage: <http://www.morrowcountyhealth.org/about-us/board-of-health/>)
- Deadline for form submission is the Thursday immediately prior to the scheduled Board meeting, no later than 5:00 pm.

8.0 TRAINING ON PUBLIC HEALTH

STEPHANIE BRAGG

Will provide continuing education certificate. Every 30 minutes equals 0.5 credits. Each BOH member must complete specific topics – see below in the information provided. MCHD has information / websites that we can provide for you to use.

FYI - Board Training

(<https://www.odh.ohio.gov/localhealthdistricts/Futures/Board%20Training.aspx>)

Background

The [2012 Legislative Committee on Public Health Futures](#) recommended that local health district board members shall participate in continuing education requirements **related to public health practice, ethics, and governance**. The 130th General Assembly codified this recommendation in 2013.

Sec. 3701.342 (G) Annual completion of **two (2) hours** of continuing education by each member of a board of health. The minimum standards shall provide that continuing education credits shall pertain to ethics, public health principles, and a member's responsibilities. Credits may be earned in these topics at pertinent presentations that may occur during regularly scheduled board meetings throughout the calendar year or at other programs available for continuing education credit. The director of health may assist local boards of health of general and city health districts in coordinating approved continuing education programs sponsored by health care licensing boards, commissions or associations. **The minimum standards also shall provide that continuing education credits earned for the purpose of license renewal or certification by licensed health professionals serving on boards of health may be counted to fulfill the two-hour continuing education requirement.**

- ✓ Ohio Public Health Combined Conference – May 14 – 16, 2018
- ✓ Consideration of change to BOH meeting date and times
- ✓ Sunshine Laws Training Document for times and dates
- ✓ Standard Operating Procedures (SOP) are being developed for all aspects and across the age. They can be used for training purposes, standardization between employees, compliance/audits, etc.
 - FYI - Clarify the difference between the Policy and procedure in order to have us all on the same page. Basically, a policy says what MCHD is going to do, and a procedure describes how it will be done.
 - **A policy** is a clear statement that describes how we will conduct business, provide services, and take action. They are a set of guiding principles to direct decision making within the agency.
 - **Procedures**, also called **Standard Operating Procedures (SOPs)**, describe how each policy will be put into action within MCHD. They outline who will do what, what steps they need to take, and what forms or documents must be used.
 - For example: It is MCHD's policy to follow ACOG guidelines, CDC recommendations, etc., in the RHWP clinic. This policy is supported by numerous procedures like: How and who to screen with certain tests; How to provide lab services, etc.

We will roll out all of the new policies and procedures as they are approved by the BOH, incrementally. The first set of policies will go to the BOH for approval next week. At each monthly staff meeting, Karrie and I will present the policy batch that was approved by the BOH for the month. Everyone will be able to review them, and sign off on their review. When the whole manual is complete, we will only need to review it annually thereafter.

What this means for you - if you are better equipped to write an SOP during this process, I will delegate that task to you. Such as- asking Amy to write the SOP for hearing screenings for the school. She is the subject matter expert for this, so she is the best person to write it.
